

DATE: September 15, 2006

PREPARED By: Rob Kalkbrenner, Fire Bond Program Manager

SUBJECT: Niles Fire Station #2 September 14, 2005 Community Meeting

A Niles community meeting regarding Fire Station #2's was held on September 14th. This was the third and last planned community meeting to discuss the proposed project located at the corner of Niles Boulevard and G Street. The agenda included reviewing the initial building design proposal and design changes based on the comments received at the last April 27, 2005 community meeting. This memo is intended to transmit copies of the presentation materials, community's comments, and next steps to obtain design approval.

Five community members were in attendance, including city official, Council Member Steve Cho.

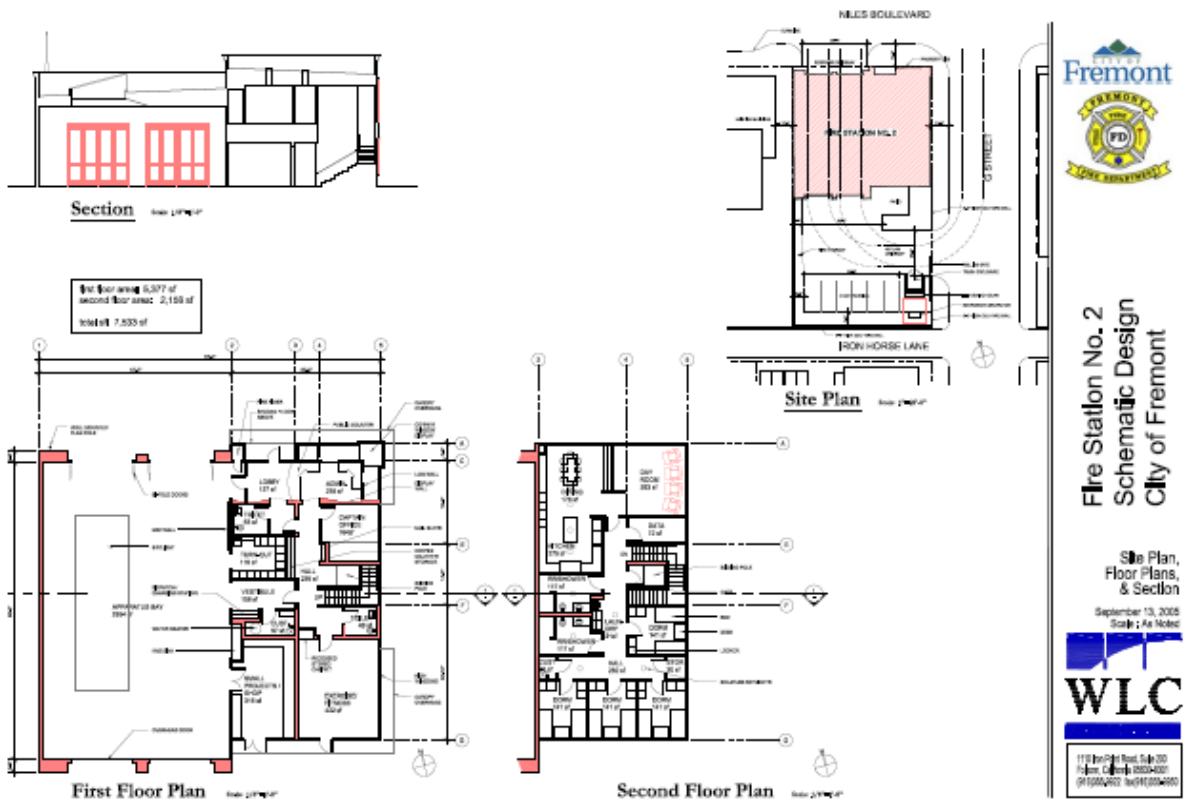

Members of the community had an opportunity to review WLC's power point presentation, drawings, and have a discussion with the architects, staff, and other community members. Copy of the proposed design sketches is attached. (Attachment A).

The community was supportive of the proposed design and believes the building meets their interests; will blend with Niles' historic buildings and has elements that remind people of Niles' history.

The project team's next steps are:

1. Submit Conditional Use Permit (CUP) and HARB application Fall 2005.
2. Art Board meeting Fall 2005
3. Complete Environmental Docs/ clearance Winter 2005/ 2006.
4. HARB meeting Winter 2005 / 2006.
5. Planning Commission meeting for "Use Permit" Winter 2005 / 2006
